

USD #386 iPad Apps

3th – 6th	
	King of Math: A math facts and a variety of other skills.
	Cloud Tables: Take the drudgery out of learning your multiplication tables. By playing this beautiful game you'll soon know your times tables inside out.
	Splash Math: Splash Math is a fun and innovative way to practice math. Different app for each grade level.
	Chicken Coop Fractions Game: In this hilarious educational game you will be shown a fraction and your job is estimate the decimal equivalent by placing a nest on a number line. Our hens are mathematical experts and they will fire their eggs towards the correct answer. If your estimate is good the eggs will be caught in the nest, but if you're too far out it all gets very messy.
	Math Bubble: Playing Math Bubble game 15 min daily, you will be surprised that you have been improved in Math. Changed from boring ordinary math game for fun with a bubble game.
	ScootPad: ScootPad is the ultimate way to engage kids in mastering Common Core Standards and Concepts in MATH & READING with personalized, self-paced and stimulating practice. Kids love ScootPad!
	The Opposites: An exciting word game which challenges children to match up pairs of opposing words in increasingly difficult levels. 'Opposites' starts with easy word pairs, like 'up-down', but as players level up they are challenged with more complex and abstract pairings, until they are dealing with rare descriptive and technical words, from biology, economics, politics, medicine, poetry and classical Greek prefixes.
	Name That Number: McGraw-Hill's Name That Number game offers a fun and easy way to practice computation and order of operations.
	Leaf Snap: This is the first in a series of electronic field guides being developed by researchers from Columbia University, the University of Maryland, and the Smithsonian Institution. This free mobile app uses visual recognition software to help identify tree species from photographs of their leaves.
	Pic Collage: This app is the best way to make collages of your photos. It arranges them into frames or you can freeform collages, cutouts, filters, borders, etc. Photoshop with your fingers!
	Stack the States: As you learn state capitals, shapes, geographic locations, flags and more, you can actually touch, move and drop the animated states anywhere on the screen. Carefully build a stack of states that reaches the checkered line to win each level.
	Math Dictionary for Kids is the #1 homework helper for kids. Named a 2013 Teacher's Choice Award winner, this best-selling book comes to the iPad with powerful tools to help any student achieve success in math!
	Learning A to Z: The "On Your Own" area provides every student in your classroom Reading A-Z leveled books and quizzes to practice reading and check understanding. All activity in the app will be recorded at Raz-Kids, enabling you to easily monitor student progress and help you determine the instruction needed for each student.

PBS Kids: The app provides a safe, child-friendly viewing experience for all ages. Kids can easily browse and watch videos at home, on the road, or anywhere.

Virtual manipulatives: A virtual set of fraction bars to provide meaning for learners.
